

Leadership, Communication & Knowledge Sharing

MENTORING • CLIENT ENGAGEMENT • PROACTIVE OPTIMIZATION

Mentoring & Training

- Guided interns on development making them learn and work independently
- Conducted multiple sessions for client team
- Topics: DLT architecture, DQ framework, utilities, CI/CD bronze - prod
- Hands-on working sessions on DLT pipeline development
- Created documentation for clarity like cook books, matrix & Data Dictionaries

Client & Team Communication

- Active participation in client calls
- Raised valid technical questions proactively
- Resolved multiple client doubts on architecture
- Straightforward & transparent team communication
- Presented findings with data-backed evidence

Forward Looking — Continuous Optimization

- Actively identifying optimization opportunities across pipelines/Workflows
- Proposing architectural improvements for scalability
- Leveraging Kiro AI to accelerate development - ideas to production-ready codes
- Driving quality improvements through DQ framework enhancements
